FLOS

Abajourd'Hui Small Semi Recessed Wall Light by Flos

The Flos Architectural Abajourd'Hui range of lights includes both this small wall lamp and a [large wall lamp](#). The Abajourd'Hui small wall light is semi recessed, revealing only half its profile. Similar to the [Soft Spun collection](#), the Abajourd'Hui light is a delicate and minimal design which requires plasterboard installation. The wall lamp comes in its natural plaster state, and can be painted any colour if desired.

Providing diffused and soft light, the Abajourd'Hui small light works beautifully in hallways and corridors both residentially and commercially. This wall light also works well as ambient lighting in a bedroom or living space.
