PRODUCT DESCRIPTION

Designer: Ross Lovegrove

Nebula by Artemide

Ross Lovegrove designed the Nebula light, using advanced parametric scripting. The design is such the light is guided through the pattern and playfully interact with each other, creating the illusion of movement. Equipped with two light sources, the wall/ceiling light becomes a centrepiece and almost always a conversation starter. Nebula is a designer piece which balances between lighting, art and science. The light becomes part of the interior decor, and can function as a sculptural installation as well. The design is yet another example that Lovegrove is truly inspired by nature and the beauty and simplicity found there.

PRODUCT SPECIFICATION

Light Source:	50W, 3000K, 2062 lumens
IP Code:	20
Dimming:	Non-dimmable.
Dimensions:	Ø 80 cm 14 cm depth
