PRODUCT DESCRIPTION

Designer: Neil Poulton

Artemide Talo LED Suspension

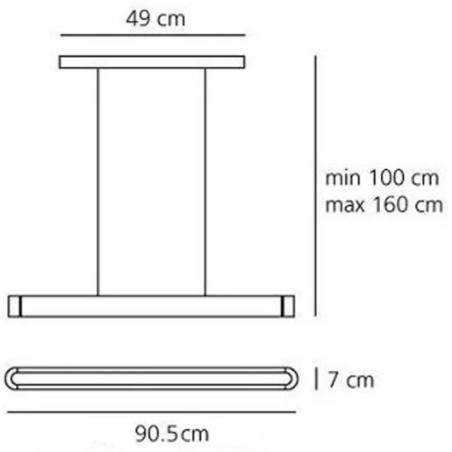

Crafted from aluminium, the Artemide Talo Suspension is defined by its clean lines and uncluttered profile. Designer Neil Poulton has perfected the art of simplicity in design, resulting in a sleek and sultry suspension that is both essential and functional. The suspension is available in three finishes: White, Black, or Silver, to suit a range of interiors.

The Talo Suspension offers a quiet, architectural presence. When illuminated, the integrated LED casts light in an upward and downward glow for functional lighting that adds a comfortable ambience and a sense of depth to the room. This bright lighting makes the Talo well-suited above a dining table, desk, or kitchen island, illuminating the surface below. In commercial spaces, display the Talo in a contemporary hotel or office space for comfortable lighting with a touch of sophistication. The dimmable version allows users to modify light output to suit any mood.

Please note, the Talo Suspension is also available in two larger sizes, measuring at 120cm and 150cm in length. Contact us for pricing and information.
