PRODUCT DESCRIPTION

Designer: Neil Poulton

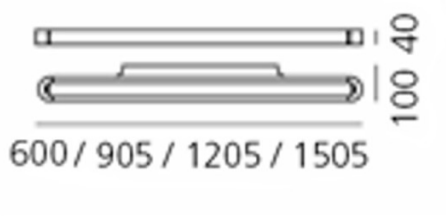

Artemide Talo LED Wall Light

Crafted from a slender aluminium bar, the Artemide Talo Wall Light features a sleek, straight-line silhouette. Designer Neil Poulton employed a philosophy of minimalism and practicality, stripping the design down to its core for a streamlined shape that seamlessly integrates into contemporary interiors. The sleek wall lamp is available in four sizes and a selection of sophisticated finishes to suit a wide range of environments.

When illuminated, the Talo Wall Light offers both upward and downward-directed lighting via an integrated LED source, delivering a gentle, uniform glow that washes over the surrounding wall. This dual lighting improves visual comfort while creating a warm, harmonious ambience, perfect for dining areas, hallways, offices and conference rooms. Its minimalistic aesthetic is particularly effective in contemporary homes or commercial environments seeking subtle yet efficient lighting.
