PRODUCT DESCRIPTION

Designer: Omer Arbel

Bocci 14s Surface Light

The Bocci 14s Surface Light is a wall and ceiling-mounted version of Omer Arbel's original 14 Series design. Made from cast glass, the half-spherical shade has a frosted cylindrical opening that houses the supplied LED or Xenon lamp. Unlike the suspended versions, the 14s fixes directly to the surface using a small white mounting plate. It can be used on its own or installed in multiples along a wall or across a ceiling.

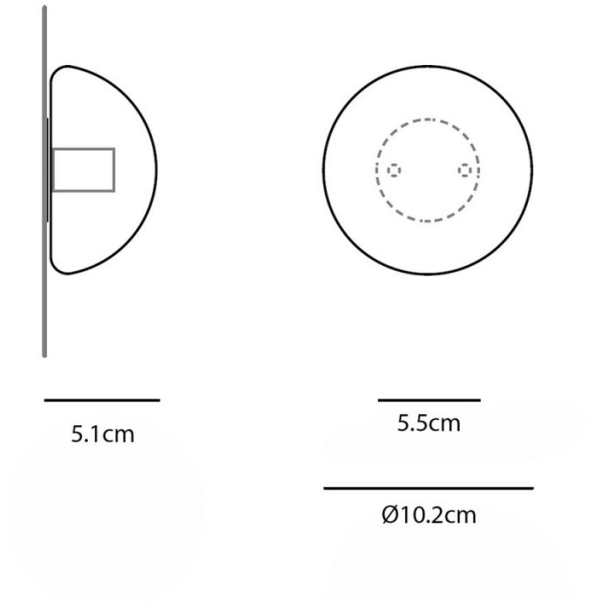

Available in Clear and the new Mirror 1 finish, the 14s offers two distinct appearances. Mirror 1 is applied by hand, giving the glass a reflective surface when switched off, while allowing light to pass through more clearly when illuminated. Each piece varies slightly as a result of the manufacturing process. The fitting is available with either an LED or Xenon lamp, both supplied, and requires a remote-mounted power supply.

Rated IP55 when installed with the supplied silicone gasket, the 14s is suitable for indoor and outdoor use, including wet locations. Its discreet mounting plate and compact glass form make it particularly suited to bathrooms, hallways, covered entrances, and repeated installations where a series of small points of light is required.

Please note, the Bocci 14s Surface Light is supplied with a remote-mounted driver. If multiple fittings are being installed on separate circuits, additional drivers may be required. For further information, please contact us.

PRODUCT SPECIFICATION

Light Source:	**LED:** 1 x Max 1W 2700K G4 LED (Included) **Xenon:** 1 x Max 10W 2600K G4 Xenon (Included)
IP Code:	55
Dimming:	**Xenon 10W:** Dimmable using trailing edge dimming. **LED 1W:** Non-Dimmable.
Dimensions:	Shade: Ø10.2cm Depth: 5.1cm
