PRODUCT DESCRIPTION

Designer: Eugeni Quitllet

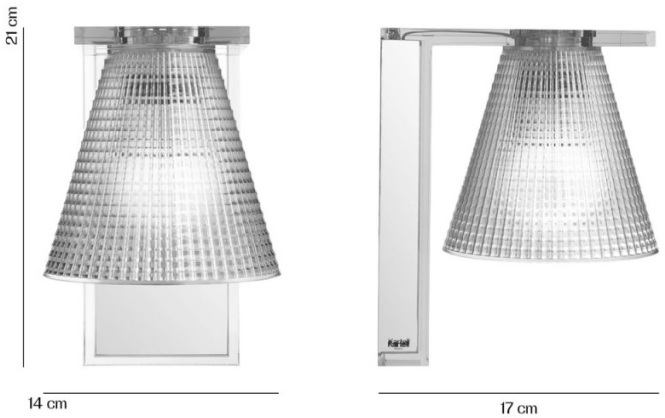

Kartell Light Air Wall Light

Part of the **Light Air Collection**, the Kartell Light Air Wall Light has been characterised as the 'illusionist', a light that defies the laws of physics with a lampshade suspended from a frame. This lighting solution boasts a strong character, a contemporary design and a magical effect. The structure is a conical parabolic lampshade and a frame made of polymethacrylate, the most transparent of plastics.

The Light Air Wall Light is available in a sculptured crystal-like version, in blue, pink, amber, transparent or a soft fabric version in beige. Both versions ensure a softly diffused illumination that can adapt to a variety of interiors; this wall light can be displayed in bedrooms, hallways and kitchens. It is also an excellent choice for commercial settings, especially in the hospitality industry. The Kartell Light Air Wall Light can be used independently or alongise the other complimentary designs in the collection, the family also includes a **Pendant Light** and a **Table Lamp**.
