Marset Discoco Ceiling Light

Christophe Mathieu's Discoco lamp consists of a series of lacquered discs that float around a chromed semi-sphere ceiling plate. These decorative discs also act as a shield for the light source, redirecting and reflecting the light onto the underlying discs and surrounding surfaces. The resulting effect is a distinct and unique light which fills and enriches any space.

Marset's Discoco ceiling light is perfect for rooms with lower ceiling height, Marset doesn't compromise on style and give maximum impact for homes and commercial spaces alike. Discoco comes in three sizes and four colours, making it simple to choose exactly the design you need to suit your interiors.
