PRODUCT DESCRIPTION

Designer: Sputnik Estudio

Marset Santorini Wall Lights.

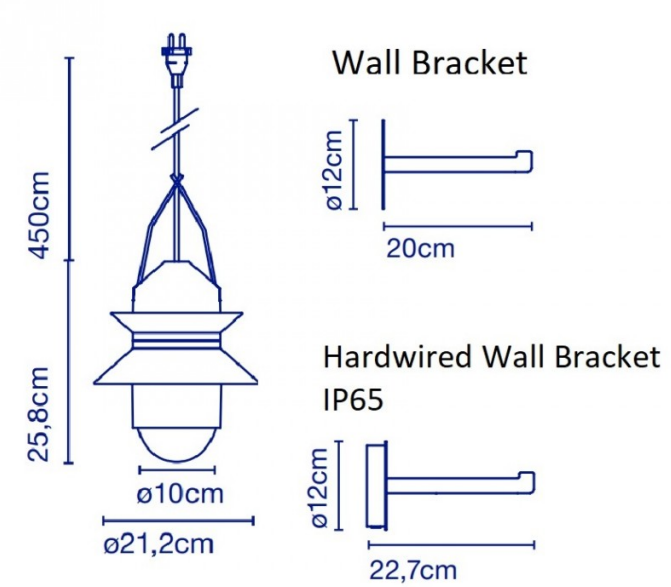

Inspired by the lanterns found on fishing boats, this collection of outdoor customizable lamps allows you to create multiple compositions. Users can choose how many shades to place on the diffuser, along with their order, position and direction. This interplay of combinations yields a rich array of direct or reflected light.

The striking and vivid colour palette of this range will add a touch of playfulness to any wall. The highly structured and individualistic silhouette stands out for other wall light designs, paired with the colour palette, this light will stand out.

The Santorini collection can be hung either individually or clustered together, or they can be strung up like a garland. They also work as wall lamps or standing lamps using accessories that can easily be added. If you have any questions about additional accessories, contact us.
