PRODUCT DESCRIPTION

Designer: Antoni Arola

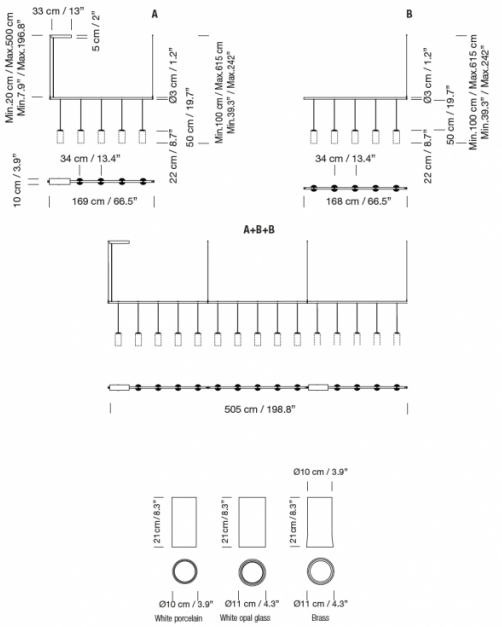

Santa & Cole Cirio Linear LED Suspension Light

The Santa & Cole Cirio Linear is a simple structure from which lampshades hang delicately, enabling long lines of light by fitting together successive structures. The structure allows for various interchangeable shades, from the porcelain that creates candle-like warmth, to translucent opal glass, and the opaque elegance of polished brass.

You can purchase one Cirio Lineal module which consists of five beautiful pendants or you can purchase several to put in a long row or line for bigger spaces. This suspension light works perfectly for hanging over tables and surfaces, providing a useful and concentrated glow that is both functional and stylish.
