PRODUCT DESCRIPTION

Designer: Vibia Design Team

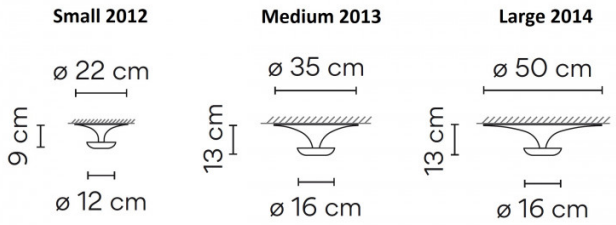

Vibia Funnel LED Wall and Ceiling Light

The Vibia Funnel LED Wall and ceiling Lamp is a contemporary and stylish light that can be used in a multitude of settings thanks to its organic silhouette and modern technology. The ceiling/wall light features a compelling profile as the wide circular base arches into a smaller circle at the front of the shade. The lampshade also conceals the integrated light source which reflects off the wall or ceiling for a warm glow and effective illumination.

The Funnel Wall and Ceiling Light is incredibly versatile as it can be applied virtually anywhere on the ceiling or wall in many types of spaces. The ceiling/wall light is available in small, medium or large sizes and also in four subtle yet striking colours, white, soft pink, green or gold leaf. Use in homes, offices or professional interiors in hallways, lounges, dining rooms and many more!
