PRODUCT DESCRIPTION

Designer: Dodo Arslan

Terzani Argent Linear Suspension

The Argent Suspension Linear is a sleek contemporary design by Dodo Arslan for Terzani, its organic silhouette is made up of an abundance of circular metal discs that are connected to branches and generate a sparkling burst of light - similar to that of a disco ball. The illumination is reflected in these discs and results in a more even glow. Both functional and decorative the Terzani Argent Linear is the embodiment of modern design.

Due to its size, the Linear Argent is a sophisticated addition to above dining tables and kitchen islands, it can also make a statement in commercial spaces and is carefully designed to add an element of class and sophistication to any room, whether in silver or gold.
