Axolight Muse Ceiling / Wall Light

Sandro Santantonio designed the Muse Ceiling/ Wall Light for the Italian company, Axolight. Named after the Greek mythological goddesses of the arts and literature, the Muse is created to evoke and inspire. The lamp is formed from a metal structure wrapped in elasticated fabric for a structure reminiscent of flower petals. Available in four sizes, the versatile lamp fits into a range of interiors, on either a wall or a ceiling.

When switched on, the fabric diffuses light into a soft and gentle glow that surrounds the lamp. This warm lighting is perfect for creating a cosy ambience in communal spaces such as a dining room or living room. For a dynamic display, multiple lights of various sizes can be installed. Since its conception, the Muse Wall/ Ceiling Light has gained notoriety worldwide, winning the “Good Design Award” in 2009.
