Axolight

Muse by Axolight

Named after the Greek mythological goddesses of the arts and literature, the Muse wall and ceiling lights are meant to evoke and inspire. Sandro Santantonio designed the Muse lights for Italian company, Axolight. The Muse light won the the Good Award in 2009. Santantonio created this cheerful light, that brings colour into any room.

The light is available in numerous vibrant colours, such as white, orange, light blue, dark blue, fuchsia, yellow, pink, red, green and violet as as three patterned options: sticks, flower or a multicolour shade. The Muse is also available in 4 sizes, the Muse 40, Muse 60, Muse 80 and Muse 120; the number refers to the luminaire's diameter. Emitting a warm diffused light, the Muse becomes a focal point in any interior. The fabric is elastic and can removed and washed, following Axolight's care instructions.

Muse lights can be installed in any interior, guaranteed to bring a fun and vibrant touch. The light can be mounted on the wall or ceiling, and you may choose to install a single Muse light or multiple lights of varying sizes and create a colourful and engaging lighting experience..
