Axolight Nelly Straight Ceiling/Wall Light

David Village Lighting

PRODUCT DESCRIPTION

Designer: Manuel Vivian

Nelly Straight by Axolight

A light that can be used either as a wall or a ceiling light, the Nelly Straight lights were designed by Manuel Vivian for Axolight. The collection was entirely inspired from the most basic geometric shapes, the circle and the square. The continuity of the light is only disrupted by a line cutting across, meant to give emphasis on the reflections and details. The Nelly Straight has a square shape that is available in three sizes options: 60x60, 100x100 or 140x140 centimetres. A steel frame forms the body of the light, while an elastic fabric covers the frame and diffuses the light. The fabric can be removed and washed. You may choose to install multiple Nelly Straight lights, and create your own unique displau of light.

The Nelly Collection also includes the round version of the Nelly, exploring the pure geometry of the most fundamental shape, the circle.
