KDLN Kushi Table Lamp

Designed by Alberto Saggia and Valerio Sommella, the KDLN Kushi Table Lamp takes inspiration from the Japanese word “kushi”, meaning skewer. This playful reference is reflected in its softly rounded opal glass diffuser, which appears to be pierced by a slim metal rod. Crafted from two layers of mouth-blown glass, the diffuser emits a warm and softly diffused glow. The metallic rod is available in a black, brass, or copper finish for a refined decorative accent.

Compact yet sculptural, the Kushi Table Lamp brings gentle illumination and contemporary character to bedside tables, desks, and shelves. Its organic form and understated detailing make it a versatile choice for both residential and hospitality settings, adding warmth, balance, and a subtle design statement wherever it is placed.
