PRODUCT DESCRIPTION

Designer: Paolo Lucidi & Luca Pevere

Lake Wall Light by Foscarini

Designed in 2015, the Lake wall light is a unique and characterful light that resembles a drop of water, embodying the irregularity and beauty seen in nature. The injection moulded shade creates a glossy finish that looks fluid and intriguing. The light source is diffused by the shade and reflects on the inside and against the wall, creating a light that gleams and produces interesting hues and colours.

The Lake wall lamp is stylish and elegant and will be a wonderful addition to many interiors. Useful in lounges, bedrooms and dining areas, this wall light is decorative and atmospheric. Available in 2 colours, mix and match the two to create variety in the room, or use the same colour for consistency. A remarkable and truly exquisite wall lamp, buy now for an innovative and stunning finishing touch in your room.
