PRODUCT DESCRIPTION

Designer: Paolo Lucidi & Luca Pevere

Foscarini Bahia Mini LED Ceilling / Wall Light

Designed by Paolo Lucidi and Luca Pevere, the Bahia Mini LED wall light is ideal for adding a hint of softness to a wall. It is highly evocative yet, at the same time, truly elegant. The light is made from two essential parts that layer on top of each other in an asymmetric way to produce a natural and organic-looking light. The LED light source is encased between the two layers, producing a light that escapes from the sides that is warm and diffused.

Playing with light and shadow, the Bahia Mini LED wall lamp is intriguing and chic and can be used in many interiors. Perfect for lining the walls in corridors, lounges, bedrooms and more, this light can be used in small spaces alone, or big spaces in clusters or rows. You can create an interesting and unique feature by placing multiple wall lights in different combinations, and you can also pair with the bigger size of the Bahia LED wall light to create variety. You can also use this light as a ceiling light and can choose between a non-dimmable or dimmable version.

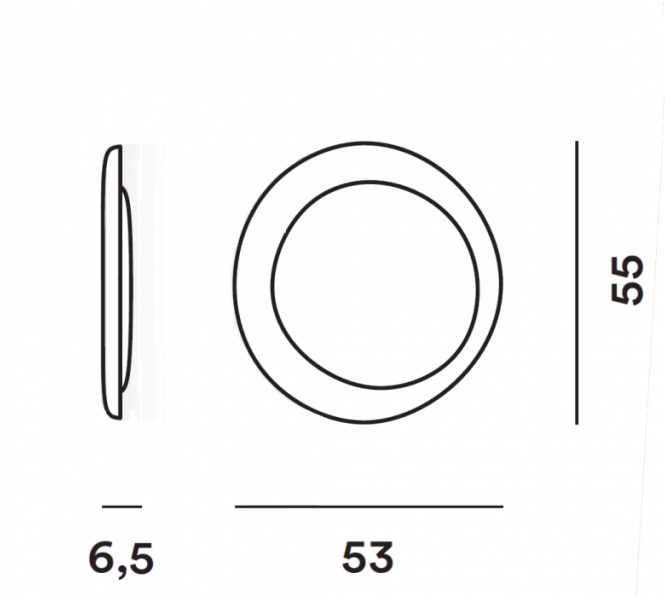

PRODUCT SPECIFICATION

Light Source: 21W, 2850K, 2425 Lumens

IP Code: 20

Dimming: Non-dimmable
or
Dimmable via mains phase dimming.
