## PRODUCT DESCRIPTION

**Designer:** Joan Gaspar

### Marset Ginger XXL 60 LED Floor Lamp

Marset Ginger XXL 60 LED Floor Lamp is a large adjustable floor lamp by Joan Gaspar, built around the thin circular shade used across the Ginger collection. The pressed wood diffuser is made from sheets of wood, paper, and resin compacted under high pressure, creating a slim shade that keeps the warmth of natural oak or wenge. The light source is hidden beneath the shade, giving the lamp reflected light rather than a direct exposed LED.

The XXL 60 floor lamp uses a suspended shade and adjustable structure, allowing it to work like a pendant where a ceiling light is not practical or wanted. The stem and suspension system allow the shade to move forward and back, as well as side to side, while the carbon fibre arm can be tilted depending on the position of the pivot joint. This gives the lamp a wider range of placement, useful beside a sofa, lounge chair, reading area, or dining table where light needs to reach further into the room.

Ginger XXL 60 is available in Oak and Wenge finishes, both with a lacquered matt black structure and black electrical cord. The integrated LED gives warm 2700K light, and the foot-operated progressive in-line dimmer allows the output to be adjusted from a brighter task light to a lower evening level. Most suited to living rooms, reading areas, dining spaces, lounges, hotel interiors, restaurants, and larger rooms where an adjustable floor lamp can provide warm reflected light with a broad reach.

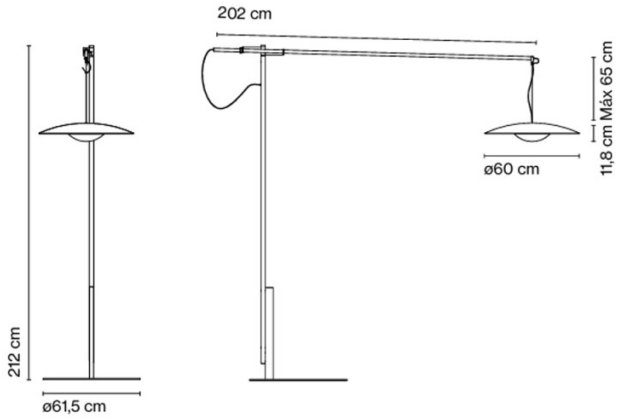

## PRODUCT SPECIFICATION

**Light Source:** 25.45W, 2700K, 1165 Lumens

**IP Code:** 20

**Dimming:** In-line dimmer included on cable.

**Dimensions:** Shade: Ø60cm
Shade Height: 11.8cm
Base: Ø61.5cm
Height: 212cm
Cable Length: 250cm
