PRODUCT DESCRIPTION

Designer: Ronan & Erwan Bouroullec

Flos Aim Small LED Pendant Light

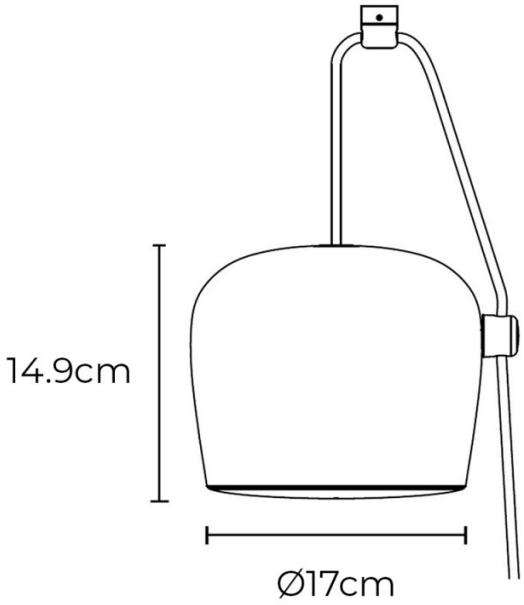

The Flos Aim Small Pendant is a playful and innovative design with an industrial character. The Flos Aim pendant light was designed by the collaborative team of brothers Ronan and Erwan Bouroullec in 2013. As rising stars of European design, Ronan and Erwan Bouroullec strive to combine both romanticism and functionality into their designs, which is evident throughout both brothers' work in the lighting design industry. This suspension light is provided with a total of 9 meters of cable, enabling the user to suspend the lamp 3 meters from the ceiling. This long length of cable allows the Aim small pendant light to be suspended from the ceiling and draped in a variety of ways for total creative freedom.

With an integrated LED light source, the Flos Aim effectively illuminates both residential and commercial spaces with a diffused and even light emission. As part of the Aim collection, a **multiple ceiling rose** can be purchased separately, allowing up to five standard-size Aim pendants or five mixed-size Aim pendants to be hung from one central ceiling point.

Please Note: The Flos Aim Pendant can be dimmable when used with a dimming module, which can be purchased separately. Please contact us for more information and pricing.
