PRODUCT DESCRIPTION

Designer: Omer Arbel

Bocci 28 Series Chandelier

Designed by Omer Arbel, the 28 Series chandelier is made up of multiple pendants from the Bocci 28 series using a rectangular, circular or square ceiling canopy. The chandeliers come with a light source included, with the choice between a **LED 1.5W** bulb or a **Xenon 20W** bulb, which both provide a long-lasting and environmentally friendly glow.

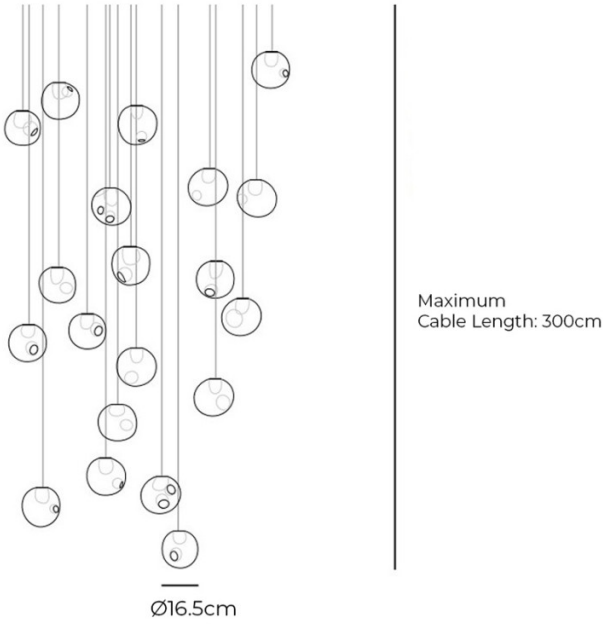

Each 28 Series pendant has a glass lampshade that is created by a special glass-blowing technique, which results in the intriguing holes featured in the shade. The light bulb is also covered by a white lamp holder, which diffuses the light and creates a soft illumination. You can use this chandelier light in many settings, and it will create an amazing and eye-catching aesthetic in any interior.

Please Note: All Bocci Suspension Lights come with a white ceiling canopy as standard. Other finishes are available; please contact us for more information and pricing.

The 28 Series chandelier lights are available in a wide variety of colours. To create your very own colour combinations, click here to visit the Bocci website. Forward your custom design to us so that we can send you a quotation. See the final image on the left for instructions.

PRODUCT SPECIFICATION
