PRODUCT DESCRIPTION

Designer: Jordi Vilardell

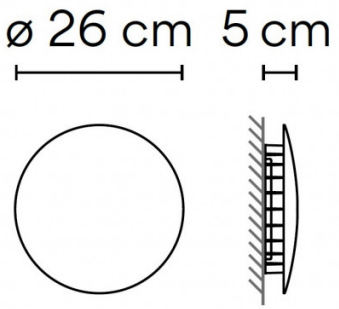

Vibia Meridiano LED Wall Light

The Vibia Meridiano Wall Light is made for outdoor use, featuring metal rods to produce a beautiful cast of shadow onto the wall. The effect resembles the sun, drawing the eye to any exterior for atmospheric and decorative illumination. The wall lamp is made from steel, having a robust structure to be suitable for use in any type of exterior.

The Meridiano wall light has an integrated LED light source for a long-lasting and efficient glow, which is concealed by a front diffuser for anti-glare. The wall light comes in an off-white colour and will look gorgeous in patios, terraces, courtyards and more. Also pair with the Meridiano floor lamp for a complete and consistent look.
