PRODUCT DESCRIPTION

Designer: Josep Lluis Xucla

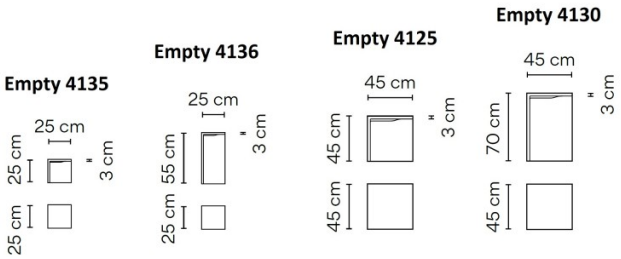

Vibia Empty Outdoor LED Floor Lamp

Designed by Josep Lluis Xuclà, the Vibia Empty Outdoor Floor Lamps are a unique innovation, creating a cross-over between furniture and lighting. Empty has many functions and uses in outdoor spaces, not only illuminating your space but also providing a structure that can also be used as a table. The floor light boasts a simple perpendicular structure crafted from concrete and housing 2 LED strips that distribute the light downwards and resulting in an ambient and effective glow.

The Vibia Empty LED Outdoor Floor Light is a sculptural piece, even when turned off, this design turns from light to table to seat depending on your needs and is a perfect addition to environments where you host guests - either residentially or in the hospitality sector. The floor lamp is available in 4 versions, with each one having a unique size so you can mix and match to create stunning displays on any exterior.
