PRODUCT DESCRIPTION

Designer: Bertjan Pot

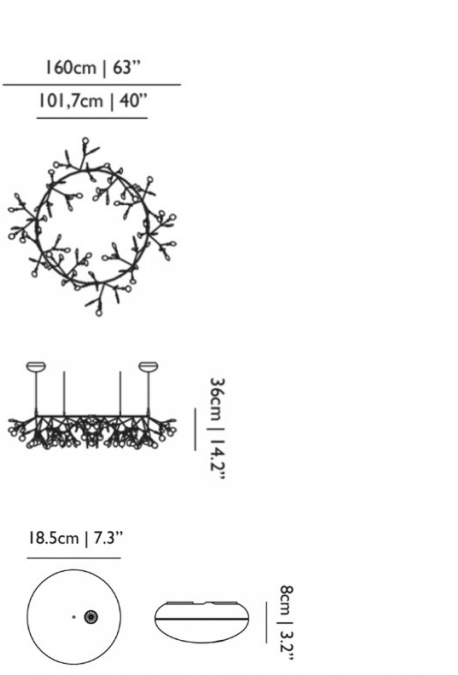

Moooi Heracleum III The Small Big O Suspension

The Heracleum III The Small Big O Suspension was created after the success of the original, larger **Big O Suspension**. This new addition has been designed to fit more intimate settings, making the suspension accessible for a wide range of interiors. The 90 LEDs are powered by Electrosandwich® technology. This technology was designed by Marcel Wanders and allows for numerous ultra-thin LEDs to be illuminated simultaneously.

Designed by Bertjan Pot, the Heracleum Collection was originally inspired by the Heracleum plant. Branching stems and multiple petals mirror the plant's natural form. Each LED petal can be adjusted, allowing for customisation and manipulation of light. When the suspension is illuminated, it emits a captivating glow that bathes the surrounding space in light. Display in a dining room or bedroom to create a cosy, intimate atmosphere. The Heracleum III The Small Big O Suspension is available in three finishes: Copper, Nickel, and White.

PRODUCT SPECIFICATION

Light Source:	32W, 2600K, 2340 Lumens
