PRODUCT DESCRIPTION

Designer: Jonas Bohlin

Orsjo Belysning Kvist 4 Arm Pendant

The Kvist Pendant light is a contemporary classic. This piece was designed by Jonas Bohlin who took inspiration from a Birch tree, in particular the branches. Kvist is made up of four adjustable light units, or branches, making it perfect for directional light. Particularly in the kitchen or bathroom. All four light units are also dimmable.

The materials used for the Kvist Pendant are durable and are made to 'age gracefully' much like a tree. Over time the material gently shifts shades, developing a unique pattern. This design is delicate and functional.

Also available in a larger size with 6 arms. Please **contact us** for more information and pricing.
