Secto Varsi 1000 Suspension Arm Only

Please note, Secto shades must be purchased separately and are not included in this price. For further details & advice please contact us.

The Secto Varsi 1000 Suspension Arm is a practical and creative solution for hanging pendant lights in spaces without ceiling suspension points. Designed to work seamlessly with several Secto Design pendants, this wall-mounted arm allows for a new level of flexibility and style in lighting installation. Its adjustable length, ranging from 130 cm to 230 cm, and 180-degree rotation capability make it a versatile choice for a variety of spaces, from living rooms to workspaces.

Handcrafted in Finland from powder-coated steel, the Varsi 1000 combines durability with Secto's signature minimalist design. It comes equipped with an 8-metre black textile cable, complete with a plug and inline switch, eliminating the need for hardwiring. For enhanced adaptability, the arm's length and the height of the attached pendant can be adjusted effortlessly, making it suitable for both small and large spaces.

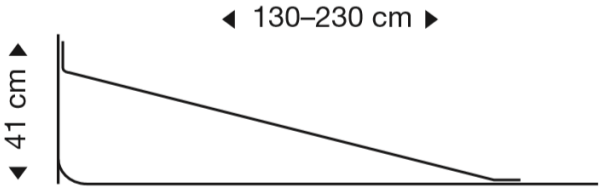

The Varsi 1000 is compatible with a curated selection of Secto pendants, including the Secto 4200, Octo 4240, and Victo 4250. Whether you're looking to illuminate a cosy reading nook or a dining area, this suspension arm allows you to achieve both functionality and a cohesive design aesthetic.

The Secto Varsi 1000 suspension arm is compatible with the following Secto products:
Secto 4200
Secto 4201
Octo 4240
Octo Small 4241
Victo 4250
Victo Small 4251
Puncto 4203
Kontro 6000
