PRODUCT DESCRIPTION

Designer: Enzo Catellani

Catellani & Smith Lederam W LED Wall Light

Designed by Enzo Catellani, the Catellani & Smith Lederam W Wall Light combines the simple and extravagant in one small but impressive lighting fixture. This wall light creates a juxtaposition between the matt and shimmering finishes as both enhance the other. Both discs can be adjusted to personalise the style as well as the lighting direction and intensity. This allows you to create and manoeuvre the Lederam W to whatever suits your space best. Ideal for hallways and corridors, these slim wall lights add a splash of luxury to your space whilst also remaining practical and functional.

Available in an all-copper or a white and gold finish, the Lederam gives you a wide range of choice and freedom to customise and adapt your fitting to your interior.
