PRODUCT DESCRIPTION

Designer: Enzo Catellani

Catellani & Smith Lederam C2 LED Ceiling Light

The Lederam C2 Ceiling Light was designed by Enzo Catellani and is described by Catellani & Smith as 'embodying the accuracy of the motion required to draw a line'. With the stark black straight stems attaching the ultra-thin shades to the wall fitting, the C2 LED Ceiling Lamp makes a juxtaposition between the straight bold stems and the soft rounded shades. This combination of matte black and metallic gold enhances the qualities of both materials as they balance the overall design. The use of the gold finish brings a touch of luxury to the space and characterises the elegance and beauty that Catellani & Smith bring to each and every product.

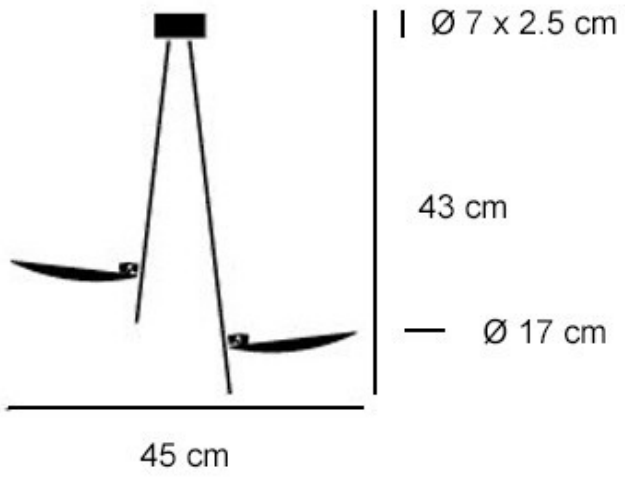

The two integrated LED light sources are hidden above the thin golden shades to provide an ambient uplight that creates a peaceful indirect lighting solution ideal for those calming spaces in your home or commercial space. Place the Lederam C2 Ceiling Light above a table, workspace, or hallway as it emits an ambient glow and brings a glistening golden touch to your room.

Also available in a chrome and copper finish. For further details, pricing and orders please contact us.
