PRODUCT DESCRIPTION

Designer: Enzo Catellani

Catellani & Smith Lederam F2 LED Floor Light

The Lederam F2 floor lamp by Catellani & Smith is a demonstration of the majestic beauty that Catellani & Smith bring to each and every one of their products, another beautiful design by Enzo Catellani. The tall slim stems reach an impressive 198cm high and lifts the aesthetic of a room to bring another level of light to your space. The two shades placed at the very top of the two stems provide a gentle indirect light that can be angled towards a wall or corner of your room to create an ambient backlight.

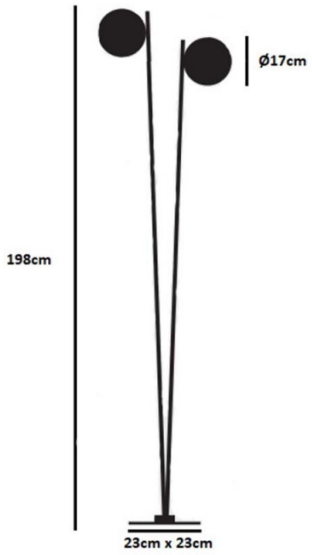

The two shades come in a range of metallic and monochrome colour finishes that beautifully contrast the simplicity of the two stems. Bring a dazzling touch to your space with the gold or copper shades or a more stylish look with the black or white shades. The Catellani & Smith Lederam F2 floor lamp is a quirky new solution to many indirect lighting solutions.

Also available in a chrome, copper, gold, and black finish. For further details, pricing and orders please contact us.
