PRODUCT DESCRIPTION

Designer: Enzo Catellani

Catellani & Smith PostKrisi F 64 Floor Lamp

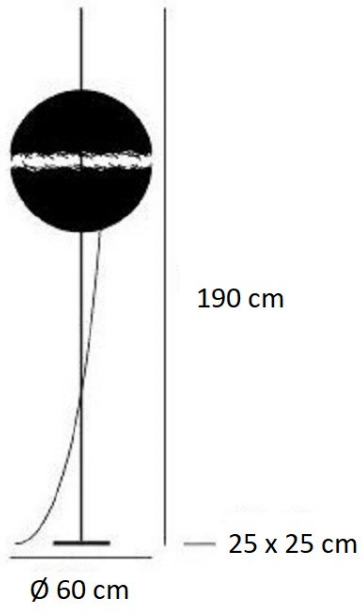

This floor lamp by Catellani & Smith is a unique design that uses fiberglass as the main feature. The designer, Enzo Catellani, was fascinated by fiberglass due to its incredible versatility and strength. This made it ideal for creating elaborate and unique lamp shades that would be timeless and sturdy. Another aspect of the fiberglass shade that Catellani was impressed by was the shadows it casts when it interacts with light.

This floor lamp is a perfect illustration of this feature as it projects an interesting pattern as the light passes through its frayed edges and translucent shade. Available in a selection of shade types and stem colours, the PostKrisi F 64 floor lamp by Catellani & Smith can be the perfect fixture in your home. Place this lamp in your living space, hallway, or bedroom for a calming ambient and glare-free glow.
