PRODUCT DESCRIPTION

Designer: Enzo Catellani

Catellani & Smith PostKrisi 65 Pendant Lamp

This Catellani & Smith PostKrisi Pendant Light demonstrates the beauty of fiberglass material as it showcases the characteristics and properties of the material that make it the perfect lampshade. The tactile nature of the fiberglass gives this pendant light an interesting raw and natural appearance that is enhanced by the frayed edges of the fiberglass shade. These frayed edges create a shadow and light pattern wherever it is placed and also make the pendant appear like it is crafted from fabric.

As the light escapes from the gap in between the two hemispheres, it creates a mix of direct and indirect light that would be ideal for any space that needs ambience and practical light. The Catellani & Smith PostKrisi Pendant Light is a beautiful addition to living rooms, entryways, kitchens dining spaces and reception areas.
