PRODUCT DESCRIPTION

Designer: Ionna Vautrin

Foscarini Chouchin Reverse Pendant Light

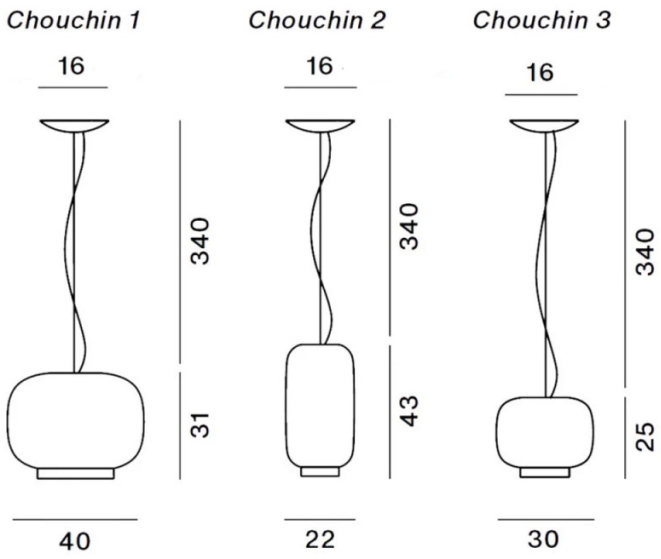

The Chouchin Reverse pendant has the same design as the Chouchin pendant, with the colours reversed. The lampshade has a white finish with the bottom having a lovely splash of colour. This pendant is inspired by traditional Japanese lanterns which the light is named after. Distinguished by a round design with smooth lines, the shade is made from blown glass and is a stylish and beautiful light.

The Chouchin Reverse pendant light emits a downward light that is soft and inviting, perfect for creating a warm atmosphere and for hanging over tables and surfaces. Wonderful for many settings, this pendant light can be used in lounges, kitchens, offices and more in professional and domestic interiors. Mix and match the 3 different versions and colours to create variety or use singularly as a main light in the room.

The Foscarini Chouchin Reverse Pendant is also available with an integrated LED light source. Please contact us for more information and pricing.
