PRODUCT DESCRIPTION

Designer: Ernesto Gismondi

Artemide Architectural Calumet LED Outdoor Ceiling Light

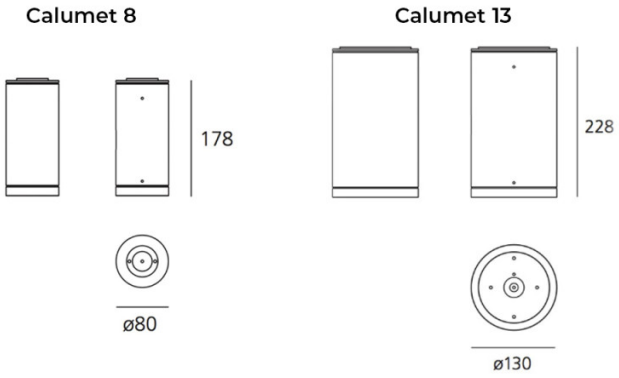

Artemide Architectural Calumet LED Outdoor Ceiling Light is a durable, compact downlight for outdoor ceilings, pairing high efficiency LEDs with precision lenses to control spread and maximise delivered lumens. The Ø80 version provides a tight 25 degree beam for accents and entrances, the Ø130 version opens to 37 degrees for broader coverage over terraces, balconies and external corridors.

Both sizes come in anthracite grey or white grey, the simple cylindrical form integrates cleanly on contemporary canopies and soffits. Use singularly for markers or repeat to build uniform pools of light across circulation routes and seating areas.

As the official UK distributor, we can support you with the Artemide configurator and specification. Contact us at artemide@davidvillagelighting.co.uk.
