PRODUCT DESCRIPTION

Fontana Arte IO Wall Lamp

The Fontana Arte IO LED Wall Lamp is a compact and innovative lighting solution designed to resemble a small, curved lunar disc. This wall lamp is built to handle LED light sources and features a unique dual-axis rotation frame, allowing it to rotate along both longitudinal and transverse axes. This design enables precise control over the light's direction, perfect for personalising your lighting setup to fit any room's mood or function.

The IO's slim profile and adjustable functionality create an almost satellite-like effect, as if it is suspended near the wall without touching it. This positioning produces an intimate wall-washing effect, softly illuminating spaces with gentle, ambient light. The lamp's exterior diffuser offers an Up/Down adjustment to broaden or narrow the light beam, providing flexible lighting for bedrooms, hallways, or living areas where subtle yet functional lighting is needed.

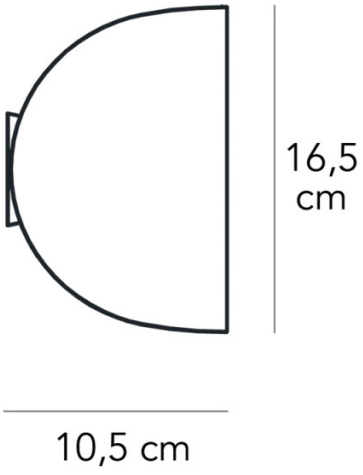

PRODUCT SPECIFICATION
