PRODUCT DESCRIPTION

Designer: Greta M. Grossman

Gubi G-10 Pendant Light

The G-10 Pendant Light, designed in 1950 by Greta M. Grossman, is characterised by its industrial aesthetic and distinctive lampshade, which has a textured finish and polished brass details. Drawing inspiration from mid-century Scandinavian design, the G-10 Pendant adds both function and charm to your home. Perfect for dining or kitchen areas, this pendant works beautifully as a single feature light over a table or in clusters for a dramatic effect.

Its clean lines and unique shade shape make it suitable for interiors that blend industrial elements with modern elegance. The opal glass diffuser softens the light, ensuring a warm and inviting atmosphere.
