PRODUCT DESCRIPTION

Designer: Greta M. Grossman

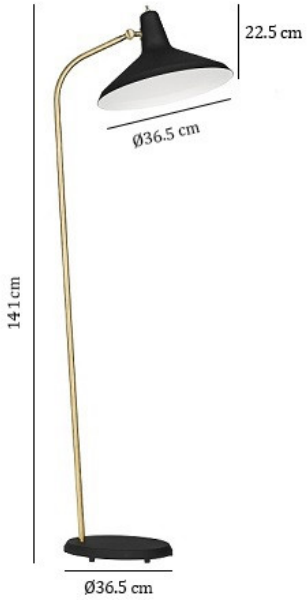

G-10 Floor Lamp by Gubi

Designed in 1950 by Greta M. Grossman, the G-10 Floor Lamp is a refined blend of industrial and luxurious design. This lamp features a rough-surfaced, broad shade that directs light downwards, creating a cosy and focused glow. The polished brass stand adds a striking contrast, making it a standout piece in modern interiors.

The G-10 Floor Lamp works wonderfully as a reading or task light, positioned next to an armchair in a living room or study. Its angular design and textured finish complement contemporary interiors with industrial influences or those seeking understated elegance. Whether used as a functional lamp or a statement piece, the G-10 Floor Lamp is sure to elevate your space.
