PRODUCT DESCRIPTION

Designer: Luca Nichetto

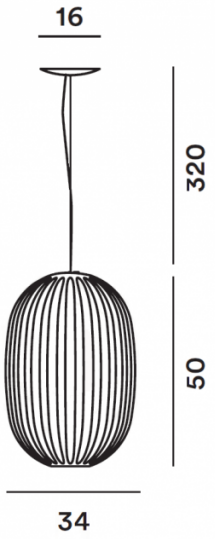

Foscarini Plass Pendant Light

The Foscarini Plass Pendant was so named by combining the words plastic and glass which act as the source and inspiration of the design. The pendant was designed by Luca Nichetto to reinterpret the Italian tradition of glass making, by using contemporary technology to mould polycarbonate, the result is an elegant curved shade that produces a slightly diffused glow.

The modern manufacturing process has resulted in a pendant light that has unique and irregular features making it completely personal to the user. The Plass Pendant Light by Foscarini comes in 2 chic colours, light blue and grey, which reflect the light in a lovely way. This light is suitable for many settings, both big and small, and can be used singularly or in clusters to produce a gorgeous light feature.

PRODUCT SPECIFICATION

Light Source:	1 x Max 116W E27 (excluded)
