PRODUCT DESCRIPTION

Designer: Luca Nichetto

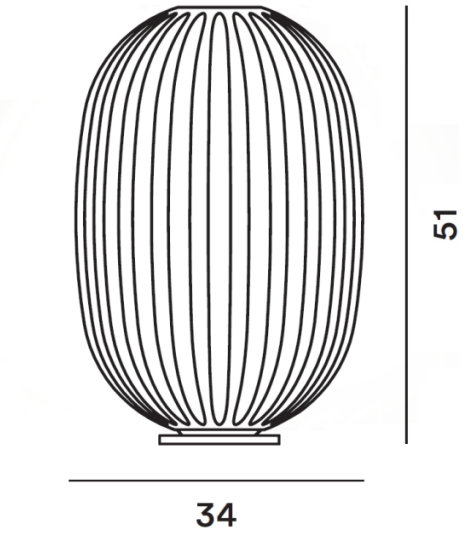

Plass Table Lamp by Foscarini

The Foscarini Plass Table Lamp is part of the **Foscarini Plass Collection**, a range named by combining the words plastic and glass. The table lamp is made by modern, innovative technology by moulding polycarbonate. Directly inspired by Italian glass making, the shade resembles the look of glass as it has slight irregularities and reflects and refracts light as glass would.

Beautiful and delightful, the Plass Table Lamp is available in 2 lovely finishes, light blue and grey, and will look stunning in many settings. Use on tables, desks, side tables, shelves and more to provide a gorgeous, warm ambience. The table light is also available in 2 versions, either dimmable or non-dimmable, so you can find the right choice for your space. Don't miss out on this contemporary and chic light that will not disappoint.
