PRODUCT DESCRIPTION

Designer: Lievore, Altherr, Molina

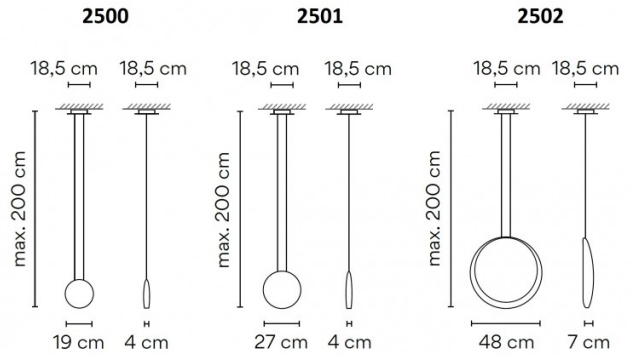

Cosmos LED Pendant Light by Vibia

The Cosmos pendant was designed by Lievore, Altherr, and Molina and is an intriguing and eye-catching fixture. The pendant features a round shade that is flattened to give an optical illusion of a sphere floating in mid-air. This ethereal and lightweight look creates a modern and contemporary aesthetic, perfect for many settings and interiors.

The Cosmos pendant lamp features an integrated LED light source which sits in the bottom, emitting a downward glow which is wonderful to use above surfaces or tables. The pendant light comes in two sizes, small 2500 or medium 2501 and is available in four colour finishes, chocolate, green, light grey and white. Use alone or in clusters and lines to create a spectacular look in your home or professional space.
