### PRODUCT DESCRIPTION

Centrelight Metallic Moon Floor.

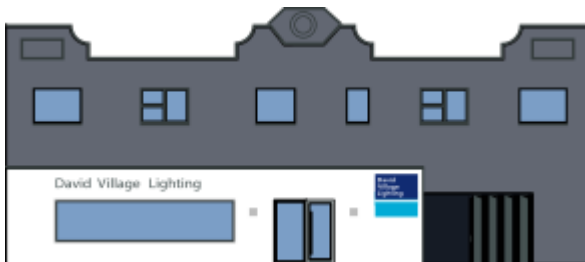

Metallic Moon separates the light source from the lamp, which takes on its own aesthetic value as a result. These objects are all crafted by specialist artisans and are therefore completely unique pieces. Light refraction joins forces with intentionally irregular surfaces that multiply the light's quality and make the object itself all light. The irregular surfaces are lined with gold, silver and copper coloured leaf.

Made of waxed rough iron structure with internal irregular surface lined with silver, gold or copper coloured leaf, steel spoon lamp holder, with extractable candle holder.

Lamp: 1 x 60 watt GY6.35 Low Voltage Halogen 12V, included
