PRODUCT DESCRIPTION

Designer: Sir Kenneth Grange

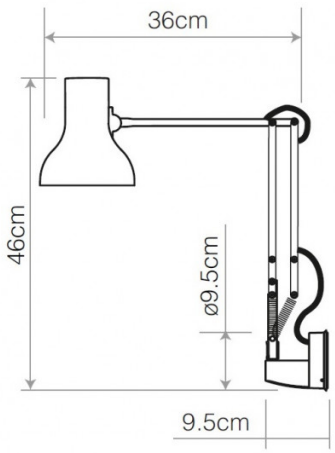

Anglepoise Type 75 Mini Lamp with Wall Bracket

Designed by Sir Kenneth Grange, the Type 75 Mini Lamp with Wall Bracket is a smaller version of the **Type 75 Lamp with Wall Bracket**. This compact wall lamp boasts the clean lines, full, flowing movement, and flawless balance expected of an Anglepoise. Its petite form adds further versatility, giving users the freedom to install it in a variety of environments, regardless of space. When not in use, the lamp can be folded against the wall to save even more space.

The Type 75 Mini Lamp with Wall Bracket features Anglepoise constant-tension spring technology, allowing the lamp to be moved and adjusted to direct light precisely where required. This directional light is perfect for illuminating a work surface in an office, or for installation beside a sofa or bedside for a functional reading light. Stripped back to the barest essentials, form, function, and balance, the Type 75 Mini Lamp is the perfect reading companion that blends seamlessly into a wide range of settings.
