PRODUCT DESCRIPTION

Designer: Enzo Catellani

Catellani & Smith Stchu-Moon 02 LED Pendant Light

Catellani & Smith Stchu-Moon 02 LED Pendant Light is uniquely intimate in its ambient downward light and reflective internal surface. Hung above a dining space or living area it can transform your space to create a zone of calm glowing light and form an intimate atmosphere, ideal for socialising in the evening or switching off after a long day. The internal metallic finish reflects a display of light and shadow into your room, mincing how light plays on a water's surface. This design by Enzo Catellani will make an artistic statement in any space.

The Stchu-Moon 02 LED Pendant brings the moon to your space, resembling a floating planet above your head, with a minimalistic exterior and a crater-like interior. This luminaire plays with light and shadow, imitating a piece of art whilst remaining functional. Utilise the illumination above your dining table or coffee table to brighten up your hosting areas with an ambient glow.

Larger sizes and other finishes available. For further details, pricing and orders please contact us.
