PRODUCT DESCRIPTION

Designer: Tokujin Yoshioka

Kartell Planet Pendant Light

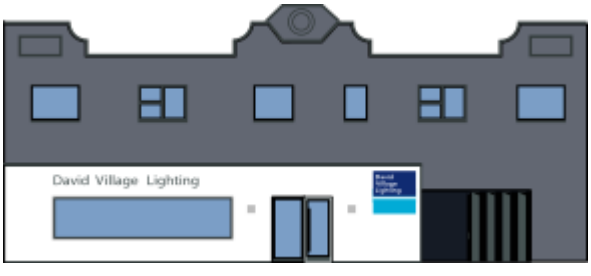

A feature light that is instantly recognisable by its spherical diffuser and crystal illusion design, the Kartell Planet Pendant was designed by Tokujin Yoshioka as part of the **Planet Collection**. Planet's illumination is effortlessly diffused through the shade, offering a glare-free ambient glow that is an excellent addition to living rooms, bedrooms and dining areas.

With an adjustable cable and three bold colour options of yellow, crystal and smoke, the Kartell Planet Pendant Light can be used as a stand-out centrepiece. Purchase either a single pendant to have a simple yet striking effect or buy several to create a clustered and extravagant light feature that produces an exuberant design scheme in your room. This luminaire can also be paired with other designs in the collection to create a cohesive interior.
