PRODUCT DESCRIPTION

Designer: Tokujin Yoshioka

Kartell Planet Low Table Lamp

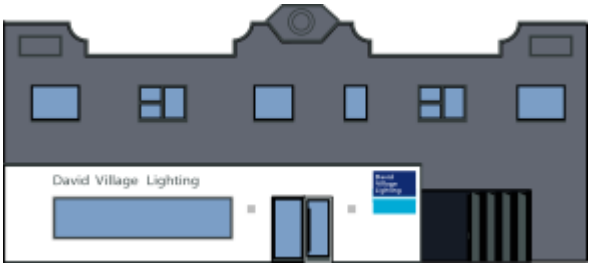

The Kartell Planet Low Table Lamp was designed by Tokujin Yoshioka and utilises the same striking crystallised structure as the rest of the **Planet Collection**. A slightly elliptical diffuser, this low table lamp has a reflective surface, creating a crystal illusion and wonderful glow. The inner light source is expertly diffused through the textured surface, providing a warm and glare-free illumination.

Available in three colours: crystal, smoke and yellow, the Kartell Planet Low Table Lamp can sit nicely on any table/desk or can be put on the floor to create a decorative yet functional lighting display. It suits a variety of interiors and can be utilised in both residential and commercial interiors. To create an even more dynamic design scheme, pair the low table lamp with other lamps from the range.
