PRODUCT DESCRIPTION

Original BTC Spun Reflector Medium Pendant Light

The Spun Reflector range by Original BTC now includes a medium sized factory-style reflector pendant. Available in two finishes; weathered copper with a polished interior or polished aluminium, this medium sized pendant light is of an industrial style and works well as a central light source providing a large pool of light.

Original BTC use a production technique dating from the 1880s which leaves a distinctive imprint in the metal, giving each light a beautifully individual, unprocessed look. See the rest of the Spun Reflector range from Original BTC [here](#).
