PRODUCT DESCRIPTION

Original BTC Spun Reflector Pendant Light

The Spun Reflector pendant light from Original BTC was originally used as an agricultural reflector and includes a range of finishes including weathered copper, polished copper, polished aluminium and painted black. Original BTC use centuries old techniques dating back from the 1880s to create truly authentic products, which leaves a distinctive imprint in the metal, giving each light a beautifully individual, unprocessed look.

Original BTC's Spun Reflector suspension comes with a choice of either a cord grip lamp holder or a porcelain suspension including chain. The smallest pendant in the Spun Reflector family, see the rest of the range [here](#).
