PRODUCT DESCRIPTION

Original BTC Aluminium Punch Pendant Light

The Original BTC Punch pendant light in polished aluminium has a truly industrial feel. With a polished aluminium spun reflector and square pierced ventilation holes, the Punch pendant is a bold pendant light perfect for use in kitchens due to the white interior maximising light clarity output.

The production technique which Original BTC use to create the Punch pendant light dates back from the 1880s and originates from East India Docks (London). This production technique which is vital to Original BTC retaining their individuality leaves a distinctive imprint in the metal, giving each light a beautifully individual, unprocessed look.
