Artemide

Orbiter by Artemide

A wall or ceiling light by renowned designer Neil Poulton, the Orbiter has a very smart and minimalist design. Whether installed as a ceiling or wall light, the Orbiter does not disappoint, a designer light emitting an indirect light. The integrated LED source is located on the disk which is extruding from the base from a stem. Illuminating the wall with geometrical shades contrasting each other, creating a stunning effect. The disc rotates around the stem, allowing to control and adjust the light, thus creating different patterns of light and shade.

Designer: Neil Poulton

IP Code: 20

Dimming: Push to make/switch dimming, dimmable using push to make switches. Please consult your electrician, additional wiring may be required on site.

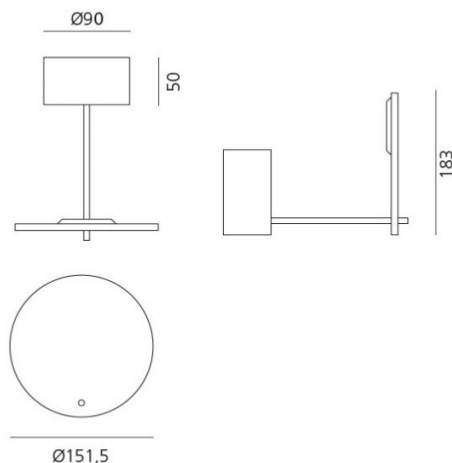

Dimensions:

19 cm length

Ø 15 cm
