PRODUCT DESCRIPTION

Designer: Andrea Quaglio & Manuela Simonelli

Artemide La Petite Wall Light

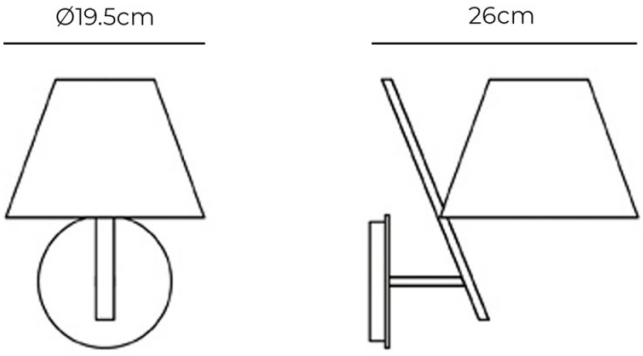

As part of the La Petite collection, designed by Andrea Quaglio and Emanuela Simonelli for Artemide, the La Petite Wall Light bears the same characteristics as the other applications. A reinterpretation of the classic lampshade, made from lightweight plastic material, the light benefits from two diffusers emitting both a direct downlight and an indirect soft uplight. The La Petite Wall Light is asymmetrical, but order is always present; a simple joint connects the lampshade to the aluminium stem, and just like that, forms an elegant, minimal design that adds character to any contemporary space. The lampshade of the Artemide La Petite acts as a counterbalance to the asymmetrical, tilted stem, adding depth to the silhouette.

The La Petite collection also includes a **Floor Lamp** and **Table Lamp**, allowing you to install numerous applications from the range and create a cohesive interior.

The Artemide La Petite Wall Light is also available in a sleek white finish. Please Contact Us for further information and pricing.
