Artemide La Petite Floor Lamp

Designed by Andrea Quaglio and Manuela Simonelli, the Artemide La Petite Floor Lamp is a reinterpretation of the classic floor lamp. The silhouette has kept the archetypal shade, which gracefully balances on an aluminium asymmetrical stem. Although designed to be abstract, La Petite's design maintains a sophisticated order, where the lampshade counteracts the asymmetry and brings harmony.

The La Petite Floor by Artemide is composed of different materials, a choice to reflect the technological innovations used for the light itself. The lamp has two diffusers, providing both direct and indirect, glare-free light and making it a sophisticated addition to a variety of interiors. The La Petite collection also includes a **Table Lamp** and **Wall Light** which are available in a choice of monochromatic black or white finish.
