Discovery Suspension by Artemide

We currently have limited stock of one of these items in our sale. Please visit our ["Sale"](#) section for more information.
color="red">

An ingenious design by Ernesto Gismondi (founder of the Studio Artemide s.a.s.) the Discovery lights are an unobtrusive, immaterial and even almost absent objects. An aluminium lightweight ring that hosts a transparent PMMA flat surface. Discovery only becomes perceptible, when switched on, and the transparent surface becomes fully illuminated. The aluminium rim hosts the LED strip, which then projects light onto the PMMA surface, it then changes from transparent to full of light. Discovery suspension light emits a direct and indirect light in a uniform way. A light that is so unique and barely perceptible in the room when switched off. Discovery is also available in an [App Compatible](#) version, which allows you to control light intensity via the Artemide App.

Designer: Ernesto Gismondi

IP Code: 20

Dimming: Push to make/ switch dimming, dimmable using push to make switches. Please consult your electrician, additional wiring may be required on site.

Dimensions:

Ø 70cm

Ø 25cm ceiling rose

200cm max cord length

Colour:Aluminium 1999110A
